

Tether Table® Aero System

Product Description:

The Tether Table® Aero Series is the cornerstone product in the Tether Tools® tethered photography system. Designed with professional photographers in mind, the Tether Table Aero provides a stable working platform to hold a laptop computer used by photographers while shooting tethered.

The product's versatility is one of its key features. The Tether Table Aero Series, with its patented LAJO-4 ProBracket, allows a photographer to use all their existing tripods, light stands and supports to set up for a photo shoot.

Product Highlights:

- Handcrafted made entirely of lightweight T6 Aerospace Aluminum
- Table attaches to support via the patented LAJO-4 ProBracket. Engineered for complete stability, the bracket includes 4 versatile receptors
 - Arca-style mounting
 - 1/4" - 20 threads for tripod head
 - 3/8" threads for tripod mount
 - 5/8" Stud receptor found on studio stands, clamps, booms, swivel pins, etc.
- Easy set up and takes seconds to configure table into work flow set-up.
- Available in various sizes
 - Aero Master 22"W X16"D, 3.75 lbs. (1.58kg)
 - Aero Standard 18"W X16"D, 3.25 lbs. (1.36kg)

- Includes custom black Pack-Cloth carrying case.
- Designed to safely hold up to 30 lbs. (13.5kg).
- Can accommodate an independent mouse / external hard-drive, etc.
- For use in-studio or on-location
- Optimally engineered to provide a stable platform
- Sleek design elevates professional approach to photo shoots
- Lifetime product warranty
- All parts made and assembled in the USA.
- Operational instructions included
- Full line of complimentary accessories available

Getting Started with Tether Table®

Photographers will appreciate the ease of use, versatility and professional set up the Tether Table® Aero System provides.

For the studio photographer, the Tether Table Aero offers a sleek design and minimalist approach to connecting a camera to a laptop. Mount the Tether Table on a junior stand with wheels and easily navigate through the studio. Easily dismantle the Tether Table and be ready to shoot on location.

The location photographer will appreciate the portability and ease of use. Each table comes with its own professional black Pack-Cloth carrying case for transport and protection. In seconds, the table can be set up on a light stand, tripod, cross-bar, SuperClamp, Swivel Pin, etc.

Complementary Products*

Complementary products, such as those listed below, ensure a complete tethering system for a professional photo-shoot:

- Tether Tools Peel & Place Mouse Pad – Ultra thin at .015"; it can easily be repositioned or removed without leaving a sticky residue.
- Tether Tools SecureStrap – adds additional laptop support and safety.
- Tether Tools Cable Case keeps cables and JerkStoppers organized.
- Clear Power 6 Outlet Surge Protector / Power Strip
- JerkStopper Cable Retention Devices eliminates stress on cable plugs.
- TetherPro Firewire, USB, HDMI and Network Cables available
- USB LED ProLight illuminates keyboard when in dark environments
- Computer Sunshades eliminates screen glare in bright sunny locations
- Accessory Arms, clamps, swivel pins, swivel arms, etc.
